

# INVENTORY

ADVANCED SOLUTIONS  
FOR YOUR BUSINESS

## INVENTORY

# IMPROVE THE PERFORMANCE OF YOUR BODYSHOP

### AUTOMATIC STOCK MANAGEMENT

What if you could decrease  
your stock up to 70%?

### EASY ORDERING

What if you could speed up  
your ordering process?

### ADVANCED REPORTING

What if you could check your  
inventory at any time?

**INVENTORY** is our latest solution designed for you to manage your stock more efficiently and to order products in an easy way. Based on a barcode scanner system for the check-in and check-out of each product, you will be aware of your daily stock and gain full transparency.

**INVENTORY** alerts you about product shortcuts and enables you to configure automatic refilling orders at a pre-defined schedule, assuring the ultimate control over your purchase process. Make also use of the advanced reporting function and learn about your consumption - stock ratio.

Thanks to the multi-device synchronization function of **INVENTORY**, you and your team will be up to date about the actual state of your stock at any time. You can even get your distributor connected to the system and make sure that he fills up your stock whenever you want.

**INVENTORY** speeds up your order process and contributes to the overall success of your body shop more than 1,000 bodyshops worldwide trust already in our innovation with astonishing results such as the significant reduction of duplication mistakes within the order process or a decrease of stock up to 70%.

Decide for **INVENTORY**  
and never run out of stock again.

WITH **INVENTORY** EVERY PRODUCT THAT LEAVES THE STORAGE ROOM  
IS BEING SCANNED AND WILL AUTOMATICALLY BE DELIVERED  
THE NEXT DAY WITHOUT US HAVING TO DO ANYTHING.
